

## **Construction Specialties appoints General Manager for Australia and New Zealand**

International architectural products firm Construction Specialties has appointed Mr Bill Maloukis as General Manager for Australia and New Zealand.

With a career path spanning over 21 years, Mr Maloukis is an accomplished executive in the building products industry.

His experience covers senior roles in sales, marketing and project management with companies such as CSR, Boral and GWA (CaromaDorf).

Mr Maloukis' previous position was with CaromaDorf as State Manager NSW & ACT and State Manager of Dorf Clark Industries.

Mr Maloukis is a qualified Engineer with a Bachelor of Engineering (Civil) from the University of NSW and a MBA from the AGSM.

Mr Paul Paffett, Construction Specialties VP of the Asia Pacific, expressed enthusiasm about the company's new appointment.

"We welcome Bill to the team and look forward to the advancement of our Pacific business with him at the helm," Mr Paffett said.

Construction Specialties is an established manufacturer of specialist building products found on and in many of the world's most prestigious buildings.

Founded internationally in 1948 and operating in Australia for over 30 years, Construction Specialties' products have been chosen to feature on hundreds of major construction works across the country. These have included the National Art Gallery, the Australian National University, the Sydney Domestic Terminal and the Royal Prince Alfred Hospital.

Mr Maloukis said, "It's a privilege to be appointed as General Manager for the leading innovator in the building industry. I look forward to raising the profile of our brands in the marketplace."

Interior products include C/S Acrovyn Wall® Protection and C/S Pedisystems® Entrance Flooring solutions. Technical products include C/S Expansion Joint Covers and Rain Defence Louvers. Exterior products include C/S Sun Controls and C/S Geometric Grilles.
